RICHARD WINNER DUVOR

Application Security | Web, Cloud & AI App Security | Frontend Engineer

Accra, Ghana | +233 55 782 3321 | duvorrichardwinner@gmail.com
duvorrichardwinner.me | linkedin.com/in/richard-winner-duvor | github.com/dr-winner

PROFESSIONAL SUMMARY

Builds and secures Synchora Health's healthcare platform as IT Developer Lead / Cybersecurity Analyst, covering AWS, Azure, IAM, access control and secure SDLC. Leads frontend development, with additional UI and frontend experience at Geek Summer. NetworkWalks healthcare pentest case study covers SQLi authentication bypass, CVSS v3.1, OWASP Top 10 and PTES. DataMaker LLM operations research and AI-assisted security tooling inform an AI security focus.

CORE SKILLS

Application & Web Security: OWASP Top 10, SQL injection, authentication and access control, secure SDLC, OWASP WSTG, CVSS/CWE reporting, PTES

Frontend & Engineering: React, Next.js, Tailwind CSS, React Native, JavaScript, Python, SQL, Figma, Rive

Cloud & DevSecOps: AWS IAM, GuardDuty, CloudTrail, EventBridge, Azure, Terraform, Docker, Kubernetes, CI/CD

AI Security & AI-assisted Tooling: LLM output review, anomaly detection, HexStrike AI via Claude MCP

Offensive & Detection: WHOIS, WhatWeb, DNSRecon, theHarvester, Maltego, Nmap/Zenmap, John the Ripper, MITRE ATT&CK, SIEM/log analysis, alert triage

PROFESSIONAL EXPERIENCE

IT Developer Lead / Cybersecurity Analyst | Synchora Health, Accra
Feb 2025 - Present

- Integrates security controls into the application development and deployment lifecycle; secures AWS and Azure through IAM policy design, access control enforcement and secure configuration.
- Leads frontend development for a hospital communication and patient management platform, with a five-phase roadmap covering role-based dashboards and chronic-care tracking.
- Conducts cloud configuration audits and security reviews, documenting findings and remediation decisions.

Cybersecurity Intern, Ethical Hacking & SOC Analyst Tracks | TechBiz Security
Sep 2026 - Present

- Completing parallel six-week tracks covering web and network penetration testing, exploitation, SIEM/log analysis, alert triage, threat detection and incident response; produces security assessment reports.

Cybersecurity Intern | NetworkWalks
Aug 2026 - Sep 2026

- Authored a healthcare attack-chain case study covering SQL injection authentication bypass, PDF cryptanalysis, metadata forensics and data exfiltration; scored findings with CVSS v3.1 and mapped them to OWASP Top 10 and PTES.
- Documented an authorized reconnaissance and network-scanning engagement using WHOIS, WhatWeb, DNSRecon, Google dorking, Maltego, theHarvester and Nmap/Zenmap.
- Used John the Ripper on protected documents and HexStrike AI via Claude MCP to analyze password weaknesses.

PROFESSIONAL EXPERIENCE (CONTINUED)

Frontend Developer & UI/Motion Designer | Geek Summer

Oct 2025 - Oct 2026 | National Service (NSS)

- Designed application UIs in Figma and built frontend interfaces with Next.js, React and Tailwind CSS.
- Integrated a third-party CMS/blog management system into an application.
- Created 2D and 3D motion designs using Rive.
- Contributed to React Native mobile application development.

Freelance IT Consultant & Web Developer | Self-employed

Jul 2025 - Present

- Builds and deploys secure full-stack applications; manages client accounts, backups and access controls.
- Advises small businesses on cloud readiness, network setup and baseline security; performs technical security checks and system hardening.

Research Intern, LLM Operations | DataMaker, Adenta Accra

Aug 2024 - Jan 2025

- Researched LLM behavior, focusing on logical reasoning and anomaly detection; reviewed model outputs and flagged inconsistencies.
- Labeled and sanitized training datasets.

Regional Ambassador | ICP Ghana (Internet Computer)

Feb 2024 - Dec 2024

- Led technical sessions on application security, smart contract security and backend architecture across eight Ghanaian universities; guided students in building and deploying decentralized applications.

ADDITIONAL EXPERIENCE

Cashier / Financial Analyst | Ar'shial Wilson Ltd, Legon | Mar 2022 - Jul 2024

PROJECTS

Healthcare Pentest Case Study

- Documented a healthcare attack chain from reconnaissance to data exfiltration, including SQLi authentication bypass, CVSS v3.1 scoring, OWASP Top 10 mapping and PTES methodology.

github.com/dr-winner/healthcare-pentest-case-study

AWS Threat Detection as Code

- Built detection-as-code architecture using CloudTrail, GuardDuty and AWS telemetry; authored MITRE ATT&CK-mapped EventBridge detection rules and least-privilege Lambda alerting, with zero idle cost.

CERTIFICATIONS & LEARNING

AWS Cloud Practitioner (2026) | Google Cybersecurity Professional Certificate (2026)

Meta Database Engineer Certificate (2025) | Google Data Analytics Professional Certificate (2025)

In progress: CompTIA Security+, Cisco Ethical Hacker

Learning: PortSwigger Web Security Academy, TryHackMe, HackTheBox and CTFs

EDUCATION

BSc, Information Technology Management

University of Professional Studies, Accra (UPSA) | Jan 2022 - Oct 2025
